Terrain and map

Never before used terrain near the Estonian-Latvian border. Mapping was done with the help of laser scanning data. Very interesting and diverse relief, runnability changeable. The terrain has been relatively little affected by human activity. Slopes up to 20 m, many marshes of different sizes. Mappers Kalle Kalm and Madis Oras. Map scales MW12-70 1:10000, MW8-10 and MW12TR 1:7500. Contour interval 2,5 m.
